Fresno Madera PCA, FLCA	

MANAGEMENT'S DISCUSSION AND ANALYSIS

RESULTS OF OPERATIONS

Net income for the nine months ended September 30, 2025 was \$21 million compared to \$21.1 million for the same period in 2024. The 0.37% decrease from the prior-year period primarily reflects higher noninterest expense and provision for credit losses, partially offset by an increase in net interest income.

Net Interest Income

Net interest income increased \$2.9 million to \$35.6 million for the nine months ended September 30, 2025 compared with the same period in 2024. The increase was driven by higher average loan volume and increased earnings on invested capital in a higher interest rate environment. Average loan volume during the first nine months of 2025 was \$1.69 billion, an increase of \$133.3 million or 8.54% from \$1.56 billion for the comparative period in 2024. Net interest margin was 2.80% for the first nine months of 2025, consistent with the comparative period in 2024.

Noninterest Income

Noninterest income for the nine months ended September 30, 2025 was \$9.8 million, a decrease of \$91 or 0.92% from the comparative period in 2024. The decrease in noninterest income was primarily due to a lower rebate from the Farm Credit System Insurance Corporation ("FCSIC") largely offset by higher loan fee income driven by increased unused commitment fees associated with growth in our capital markets portfolio.

Provision for Credit Losses

We monitor our loan portfolio on a regular basis to determine if any increase through provision for credit losses or decrease through a credit loss reversal in our allowance for credit losses is warranted based on our estimate of credit losses over the remaining expected life of loans. The Association recorded a provision for credit loss for the nine months ended September 30, 2025 of \$1.7 million compared to \$502 during the comparative period in 2024. The increase in our provision reflects higher specific reserves on individually evaluated loans along with a higher pooled allowance driven by strong loan growth.

Noninterest Expense

Noninterest expenses for the nine months ended September 30, 2025 increased \$1.6 million or 7.67%, to \$22.7 million compared to the same period in the prior year. The increase was primarily due to higher salaries and employee benefits expense of \$1.3 million and higher information technology expense of \$374. The increase in salaries and employee benefits reflects the filling of budgeted positions and annual merit increases. The increase in information technology expense was due to higher service charges from our technology provider coupled with increased software licensing fees.

LOAN PORTFOLIO

Loan volume outstanding at September 30, 2025 was \$1.78 billion, an increase of \$100.4 million from total loan volume of \$1.68 billion at December 31, 2024. Growth was driven by new loan commitments across multiple segments and seasonal increased utilization of revolving lines of credit, primarily in the almond and poultry segments...

Allowance for Credit Losses

As of September 30, 2025, the Association's allowance for credit losses was \$4.8 million, an increase of \$1.4 million from December 31, 2024. Allowance as a percentage of loans was 0.27% and 0.20% as of September 30, 2025 and December 31, 2024, respectively. Our allowance for credit losses increased mainly due to higher specific reserves on individually evaluated loans along with a higher pooled allowance driven by strong loan growth.

CAPITAL RESOURCES

The Association continues to have a sound capital position and exceed all regulatory and board minimums. Members' equity at September 30, 2025 was \$352.3 million representing an increase of \$21 million or 6.34% from December 31, 2024. The increase in Members' equity is attributed to the Association's net operating results.

For additional information, please refer to the "Notes to Consolidated Financial Statements" and the Association's 2024 Annual Report to Shareholders.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Dollars in thousands, except as noted (Unaudited)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A description of the organization and operations of Fresno Madera Farm Credit, ACA (ACA) and subsidiaries, Fresno Madera Federal Land Bank Association, FLCA (FLCA) and Fresno Madera Production Credit Association, (PCA) (collectively, the Association), the significant accounting policies followed, and the financial condition and results of operations as of and for the year ended December 31, 2024 are contained in the 2024 Annual Report to Shareholders. These unaudited third quarter 2025 consolidated financial statements should be read in conjunction with the 2024 Annual Report to Shareholders.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the U.S. (GAAP) for interim financial information. Certain disclosures included in the annual financial statements have been condensed or omitted from these financial statements as they are not required for interim financial statements under U.S. GAAP and the rules of the Farm Credit Administration (FCA). This report should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2024 as contained in the 2024 Annual Report to Shareholders.

In the opinion of management, the unaudited financial information is complete and reflects, all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of results for the interim periods. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year ending December 31, 2025. Descriptions of the significant accounting policies are included in the 2024 Annual Report to Shareholders. In the opinion of management, these policies and the presentation of the interim financial condition and results of operations conform with GAAP and prevailing practices within the banking industry.

Recently Adopted or Issued Accounting Pronouncements

In November 2024, the FASB issued ASU 2024-03 Income Statement – Reporting Comprehensive Income – Expense Disaggregation Disclosures: Disaggregation of Income Statement Expenses. The amendments in this ASU apply to all public business entities, and require disclosure, in the notes to financial statements, of specified information about certain costs and expenses. The amendments require that at each interim and annual reporting period an entity:

- Disclose the amounts of (a) purchases of inventory, (b) employee compensation, (c) depreciation, (d) intangible asset amortization, and (e) depreciation, depletion, and amortization recognized as part of oil and gas-producing activities (DD&A) (or other amounts of depletion expense) included in each relevant expense caption. A relevant expense caption is an expense caption presented on the face of the income statement within continuing operations that contains any of the expense categories listed in (a)–(e).
- Include certain amounts that are already required to be disclosed under current generally accepted accounting principles (GAAP) in the same disclosure as the other disaggregation requirements.
- Disclose a qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively.
- Disclose the total amount of selling expenses and, in annual reporting periods, an entity's definition of selling expenses.

The amendments are effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Early adoption is permitted. The amendments should be applied either (1) prospectively to financial statements issued for reporting periods after the effective date of this ASU or (2) retrospectively to any or all prior periods presented in the financial statements. The Association is currently assessing the potential impact of this standard on its disclosures.

In December 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2023-09 - Income Taxes: Improvements to Income Tax Disclosures. The amendments in this standard require more transparency about income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid information. The enhanced rate

reconciliation will require tabular reporting by amount and percentage for specifically defined reconciling items as well as additional information for reconciling items that meet a quantitative threshold of greater than five percent of the amount computed by multiplying pre-tax income by the applicable statutory income tax rate. Income taxes paid will require disaggregated disclosure by federal, state and foreign jurisdictions for amounts exceeding a quantitative threshold of greater than five percent of total income taxes paid. The guidance will also eliminate the requirement to disclose an estimate of the range of the reasonably possible change in the unrecognized tax benefits balances in the next 12 months. The amendments in this guidance are effective for public business entities for annual periods beginning after December 15, 2024, and should be applied on a prospective basis, although retrospective application is permitted. Early adoption is also permitted for annual financial statements that have not yet been issued or made available for issuance. The adoption of this guidance is not expected to have a material impact on the Association's financial condition, results of operations or cash flows.

2. LOANS AND ALLOWANCE FOR CREDIT LOSSES

A summary of loans by type follows:

	Septer	mber 30, 2025	Dece	mber 31, 2024
Real estate mortgage	\$	1,041,724	\$	1,042,878
Agribusiness		347,548		292,212
Production and intermediate-term		299,436		262,864
Energy		40,823		34,869
Communications		33,242		28,227
Lease receivables		15,404		16,733
Total	\$	1,778,177	\$	1,677,783

Unamortized deferred loan fees and costs totaled \$2.8 million as of September 30, 2025 and December 31, 2024, respectively.

The Association purchases and sells participation interests with other parties in order to diversify risk, manage loan volume and comply with Farm Credit Administration regulations. The following table presents information regarding participations purchased and sold as of September 30, 2025:

		Other Fa Institu			Non-Farm Credit Institutions						To	tal

Credit Quality

Credit risk arises from the potential inability of an obligor to meet its payment obligation and exists in our outstanding loans, letters of credit, and unfunded loan commitments. The Association manages credit risk associated with the retail lending activities through an analysis of the credit risk profile of an individual borrower using its own set of underwriting standards and lending policies, approved by its board of directors, which provides direction to its loan officers. The retail credit risk management process begins with an analysis of the borrower's credit history, repayment capacity, financial position, and collateral, which includes an analysis of credit scores for smaller loans. Repayment capacity focuses on the borrower's ability to repay the loan based on cash flows from operations or other sources of income, including off-farm income. Real estate mortgage loans must be secured by first liens on the real estate (collateral). As required by Farm Credit Administration regulations, each association that makes loans on a secured basis must have collateral evaluation policies and procedures. Real estate mortgage loans may be made only in amounts up to 85% of the original appraised value of the property taken as security or up to 97% of the appraised value if guaranteed by a state, federal, or other governmental agency. The actual loan to appraised value when loans are made is generally lower than the statutory maximum percentage. Loans other than real estate mortgage may be made on a secured or unsecured basis.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Dollars in thousands, except as noted (unaudited)

The Association uses a two-dimensional risk rating model based on an internally generated combined System risk rating guidance that incorporates a 14-point probability of default rating scale to identify and track the probability of borrower default and a separate scale addressing loss given default. Probability of default is the probability that a borrower will experience a default during the next twelve months. The loss given default is management's estimate as to the anticipated principal loss on a specific loan assuming default occurs. A default is considered to have occurred if the lender believes the borrower will not be able to pay its obligation in full or the borrower or the loan is classified nonaccrual. This credit risk rating process incorporates objective and subjective criteria to identify inherent strengths, weaknesses, and risks in a particular relationship. The Association reviews, at least on an annual basis, or when a credit action is taken the probability of default category.

Each of the probability of default categories carries a distinct percentage of default probability. The probability of default rate between one and nine of the acceptable categories is very narrow and would reflect almost no default to a minimal default percentage. The probability of default rate grows more rapidly as a loan moves from acceptable to other assets especially mentioned and grows significantly as a loan moves to a substandard (viable) level.

A substandard (non-viable) rating indicates that the probability of default is almost certain. These categories are defined as follows:

- Acceptable assets are expected to be fully collectible and represent the highest quality,
- Other assets especially mentioned (OAEM) assets are currently collectible but exhibit some potential weakness,
- Substandard assets exhibit some serious weakness in repayment capacity, equity, and/or collateral pledged on the loan,
- Doubtful assets exhibit similar weaknesses to substandard assets; however, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable, and
- Loss assets are considered uncollectible.

The following table presents credit quality indicators by loan type and the related principal balance as of September 30, 2025:

Accrued interest receivable on loans of \$40.6 million and \$39.7 million at September 30, 2025 and December 31, 2024, respectively, have been excluded from the amortized cost of loans and reported separately in the Consolidated Statements of Condition. The entity wrote off accrued interest receivable of \$958 and \$210 for the nine months ended September 30, 2025, and 2024, respectively.

The following table reflects nonperforming assets, which consist of nonaccrual loans, accruing loans 90 days or more past due and other property owned and related credit quality statistics:

	Septe	mber 30, 2025	Decemb	er 31, 2024
Nonaccrual loans:				
Real estate mortgage	\$	15,872	\$	3,525

Accrued interest receivable related to loan modifications granted to borrowers experiencing financial difficulty as of the nine months ended September 30, 2025, and 2024 were \$212 and \$418, respectively.

The following table describes the financial effect of the modifications made to borrowers experiencing financial difficulty during the three months ended September 30, 2025, and 2024:

	For the Three Months En	ded September 30, 2025	For the Three Months En	ided September 30, 2024
	Weighted Average Term	Weighted Average	Weighted Average Term	Weighted Average
	Extension (days)	Payment Extension (days)	Extension (days)	Payment Extension (days)
Real estate mortgage	-	273	-	-
Production and intermediate-term	365	-	-	-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Dollars in thousands, except as noted (unaudited)

The following table describes the financial effect of the modifications made to borrowers experiencing financial difficulty during the nine months ended September 30, 2025, and 2024:

	For the Nine Months En	ded September 30, 2025	For the Nine Months Ended September 30, 2024						
	Weighted Average Term Extension (days)	Weighted Average Payment Extension (days)	Weighted Average Term Extension (days)	Weighted Average Payment Extension (days)					
Real estate mortgage	-	304	-	365					
Agribusiness	-	-	365	-					
Production and intermediate-term	294	-	-	-					

The following table sets forth an aging analysis of loans to borrowers experiencing financial difficulty that were modified during the twelve months prior to September 30, 2025:

	Payment Status of Loans Modified in the Past 12 Months								
	30-89 Days 90 Days or N								
		Current	Past Due		Past Due				
Real estate mortgage	\$	929	\$	-	\$ -				
Production and intermediate-term		16,892		-	-				
Total	\$	17,821	\$		\$ -				

Additional commitments to lend to borrowers experiencing financial difficulty whose loans have been modified during the nine months ended September 30, 2025 were \$2.1 million and during the year ended December 31, 2024 were \$2.4 million.

Allowance for Credit Losses

The credit risk rating methodology is a key component of the Association's allowance for credit losses evaluation and is generally incorporated into the Association's loan underwriting standards and internal lending limits. In addition, borrower and commodity concentration lending and leasing limits have been established by the Association to manage credit exposure. By regulation, loan commitments to one borrower cannot be more than 15% of our regulatory capital. To further mitigate loan concentration risks, we have established internal lending limits that are below the regulatory requirements that are based on the risk associated with individual borrowers.

A summary of changes in the allowance for credit losses by portfolio segment are as follows:

	Real E	state			Р	roduction &				Lease		
	Mortg	gage	Agri	business	Inter	rmediate-term	 Energy	Con	nmunications	Receivable	S	Total

3. CAPITAL

A summary of select capital ratios based on a three-month average and minimums set by the Farm Credit Administration follows:

	September 30, 2025	December 31, 2024	Regulatory Minimums	Capital Conservation Buffer	Total
Risk adjusted:					
Common equity tier 1 (CET1) capital ratio	14.87%	15.25%	4.50%	2.50%	7.00%
Tier 1 capital ratio	14.87%	15.25%	6.00%	2.50%	8.50%
Total capital ratio	15.05%	15.44%	8.00%	2.50%	10.50%
Permanent capital ratio	14.90%	15.28%	7.00%	-	7.00%
Non-risk-adjusted:					
Tier 1 leverage ratio	16.93%	17.42%	4.00%	1.00%	5.00%
Unallocated retained earnings (URE) and URE equivalents (UREE) leverage ratio	16.89%	17.38%	1.50%	-	1.50%

4. FAIR VALUE MEASUREMENTS

Accounting guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability. Refer to Note 2 in the 2024 Annual Report to Shareholders for a more complete description.

The Association had no assets or liabilities measured at fair value on a recurring or non-recurring basis at September 30, 2025 or December 31, 2024.

5. SUBSEQUENT EVENTS

The Association has evaluated subsequent events through November 7, 2025, which is the date the consolidated financial statements were issued, and no material subsequent events were identified.
